New European Bauhaus

The New European Bauhaus (NEB) is an environmental, economic and cultural project, combining design, sustainability, accessibility, affordability and investment to help deliver the European Green Deal.

"If the European Green Deal has a soul, then it is the New European Bauhaus which has led to an explosion of creativity across our Union."

Ursula Von der Leyen,
President of the European Commission

A growing community

Official partners non-profit organisations, NGOs, educational institutions, and collectives making a difference locally.

Friends public entities, political organisations and businesses committed to the values of sustainability, aesthetics and inclusion.

High-Level Roundtable members expert thinkers and practitioners acting as inspiration and community ambassadors for the initiative.

National Contact Points coordinating efforts in the Member States.

Prize winners and finalists inspiring positive transformation with their projects and ideas.

Beneficiaries of New European Bauhaus calls.

NEB Lab

A 'think and do' tank to make the New European Bauhaus a reality through concrete and tangible projects. By connecting the initiative's growing community and sharing ideas, it will bring about beautiful, sustainable and inclusive changes on the ground.
